

# Package ‘spatialDmelxsim’

July 18, 2024

**Title** Spatial allelic expression counts for fly cross embryo

**Version** 1.10.0

**Description** Spatial allelic expression counts from Combs & Fraser (2018), compiled into a SummarizedExperiment object. This package contains data of allelic expression counts of spatial slices of a fly embryo, a *Drosophila melanogaster* x *Drosophila simulans* cross. See the CITATION file for the data source, and the associated script for how the object was constructed from publicly available data.

**Imports** utils

**Depends** R (>= 4.1), ExperimentHub, SummarizedExperiment

**License** GPL-3

**Encoding** UTF-8

**Roxygen** list(markdown = TRUE)

**RoxygenNote** 7.1.1

**URL** <https://github.com/mikelove/spatialDmelxsim>

**BugReports** <https://github.com/mikelove/spatialDmelxsim/issues>

**Suggests** knitr, rmarkdown, BiocStyle

**VignetteBuilder** knitr

**biocViews** ExperimentHub, SequencingData, RNASeqData, ExpressionData, *Drosophila\_melanogaster\_Data*, GEO

**git\_url** <https://git.bioconductor.org/packages/spatialDmelxsim>

**git\_branch** RELEASE\_3\_19

**git\_last\_commit** 637a6e5

**git\_last\_commit\_date** 2024-04-30

**Repository** Bioconductor 3.19

**Date/Publication** 2024-07-18

**Author** Michael Love [aut, cre]

**Maintainer** Michael Love <michaelisaiahlove@gmail.com>

### Description

Allelic expression counts of spatial slices of a fly embryo from Combs & Fraser (2018), a *D melanogaster* x *D simulans* reciprocal cross

### References
