Package 'zebrafishRNASeq'

November 10, 2026

Title Zebrafish RNA-Seq Experimental Data from Ferreira et al. (2014)

Version 1.32.0

Author Davide Risso

Description Gene-level read counts from RNA-Seq for gallein-treated and control zebrafish.

zfGenes *Zebrafish RNA-Seq Experimental Data from Ferreira et al. (2014)*

Description

Gene-level read counts from the RNA-Seq experiment of Ferreira et al. (2014). The data correspond to RNA libraries for three pairs of gallein-treated and control embryonic zebrafish cell pools. Please see the vignette for details on pre-processing.

Usage

```
data(zfGenes)
```

Source

A citation for the dataset can be generated using `citation("zebrafishRNASeq")`.
